Family Fun – Photography Challenge

To raise awareness that 'maths is everywhere' we want you to take a photograph that has a link to maths.

Can you capture a moment where you have spotted maths when you've been out and about? This could be symmetry on a leaf, patterns, shapes and sequences in the sky or garden, offers in a shop window, shadows on a sunny day, odd and even numbers, directions on a road sign.

Once you have taken the photo, try and think of an accompanying question to go with it. Examples of this included 'How many miles is it to the airport?', 'What fraction of my apple pie has been eaten?' 'How long is the football pitch?' or 'How fast is dad driving?'

Once you have taken your photo you can either print them off and give them to your class teacher or email them homework@stpetersnewman.co.uk

Happy hunting

Yours sincerely

Mrs V Belford
Maths Lead
